🔑 NYN-05

Summary

Innovative engineering student skilled in web development, data analysis, and AI systems, passionate about building efficient, scalable, and impactful solutions.

Education

Acharya Institute of Technology

BE in Computer Science (Data Science)

Bangalore, India

Sept 2023 – present

- Coursework focused on AI, machine learning, and full-stack development
- CGPA: 9.3

Projects

System Monitoring

Bangalore

Real-time system monitoring and optimization.

Aug 2025 – Aug 2025

- Real-time system monitoring with Flask dashboard, forecasting, and AI
- The app is open-source ([on GitHub](#))

Sentiment Analysis

Bangalore

Automated sentiment analysis system.

June 2025 – Oct 2025

- Complete ML pipeline from dataset download to trained model deployment (open source on [GitHub](#))
- User-friendly web interface with real-time sentiment prediction and error handling

Skills

- **Programming:** Python, C, and Git; good understanding of web development and machine learning
- **Mathematics:** Good understanding of differential equations, calculus, and linear algebra
- **Languages:** English (fluent), Hindi (native)

Achievements

- **Certificate of Appreciation** from the Department of AIML & CSE (Data Science) for **Outstanding Academic Performance** (2024).
